

Town of Vermilion

2018 Annual Development Permit Summary

This report will provide a summary of the Development Permits issued within the Town of Vermilion between January 1 and December 31, 2018. Note that the following information is based upon development permit applications which may or may not result in completed development.

Numbers of Development Permit Applications

- A total of 43 development permit applications were received in the period.
- Of the 43 permits, 5 were applications for home occupations.
- All 43 permits were approved by the Development Authority.

Permits Categories

The number of permit applications for each zone category is shown in Table 1. The largest number of permits issued was for Commercial development which had 20 approved permits followed by 16 approvals for Residential developments and 5 approvals for Home Occupations.

<i>General Land Use Zone</i>	<i>Number of Applications / Number Approved</i>	<i>Percentage of Applications</i>
Residential	16 / 16	37.2%
Commercial	20 / 20	46.5%
Industrial	1 / 1	2.4%
Institutional	1 / 1	2.3%

Value of Development

In determining the value of development, home occupation permits are excluded as these typically have little expenditure associated with them. When home occupations are excluded, there were 38 developments in the Town of Vermilion during 2018. Table 2 provides the value of development for each general zone category. The estimated value of the 38 developments is \$15,951,200 with an average value of \$419,768 per development however these numbers may be slightly skewed by the 1.5 million dollar new shop project at Agland. If these values are excluded the average value per development is reduced to \$390,572.

<i>General Land Use Zone</i>	<i>Value of Development</i>	<i>Percentage of Total</i>
Residential	\$2,160,800	13.5%
Commercial	\$726,300	4.6%
Industrial	\$4,658,000	29.2%
Community	\$0	0.0%
Institutional	\$8,406,100	52.7%
TOTAL	\$15,951,200	100.0%

Table 3. Total Number of Developments, Town of Vermilion, 2002 - 2018

Within the last 17 years, the Town experienced the highest number of developments in 2009. The value of the developments has also increased over past years however the values for 2006 and 2009 were significantly skewed due to large multi-million dollar developments such as the Vermilion Regional Centre in 2006 and major upgrades at the Lakeland College Campus in 2009. The values began increasing in 2014 with the start of highway commercial development in the new Junction Sixteen 41 subdivision and some large multi-family residential buildings which continued into 2015 which had the highest value ever. With the recent economic slowdown the number of permits is down from past years however the value is the same as the overall average of the past 17 years. In the past 17 years there has been an estimated total of 241 million dollars in development.

New Housing

An important statistic to consider in evaluating development patterns and trends within the Town is the number of new housing starts and value of new housing. In 2018 there were 4 new single family residential dwellings with an average value of approximately \$325,000. The average value of a residential dwelling in Vermilion between 2002 and 2018 was \$223,857.

Table 4. New Housing Development Summary, Town of Vermilion, 2002 - 2018

Summary

The value of developments in 2018 was approximately \$16 million which is lower than the past few years but higher than average when comparing to the past 17 years. Commercial and industrial developments are on the rise which will likely continue due to increasing demand and potential for additional development in the commercial and industrial sectors.

In summary, the Town of Vermilion has had a successful albeit slightly slower year in development and looks forward to moving forward with more development in 2019.
